What is an “Infusion of Love”?

Imagine yourself being immersed in ‘love’, having love flow into every cell of your being. What might that feel like? How might that begin to transform your life?

This is an Infusion of Love. As a channel for love, we act as a conduit for love from **your** higher realms.

We assist the process by creating and holding the space for this love to flow to and through you.

An *Infusion of Love* is a one-on-one session, either in-person at our home in Pahrump or over the phone.

In-person sessions can also be scheduled in Las Vegas.

What Is Love?

Love is Energy. It is Frequency. It is Knowledge and Information. It is our Life Force and our Light Source.

It has the power to heal, to transform, to inspire, to teach, and so much more.

Love has the power to facilitate your individual evolution to your highest and best self.

Love can be transmitted through touch, sound, thought, sight, movement, and breath.

What Can I Expect?

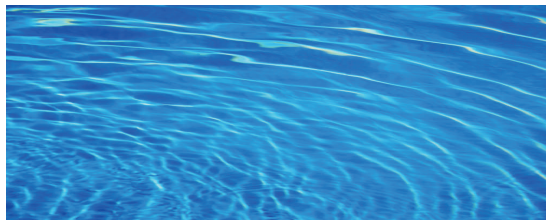

Each session is as individual and unique as the client.

You may experience waves of energy moving through your body.

You might feel yourself travelling to other dimensions.

You may feel the releasing of old physical pains.

You may feel simple, deep, possibly profound relaxation.

The end of the session is actually the **beginning** of the transformational experience.

The session infuses your being with love from your higher realms. Love takes over from there, knowing what will best assist & accommodate you.

If you resonate with what you read here; then experience the power of love for yourself!

Contact us today to schedule your *Infusion of Love*!
